- **Certificate of Completion** to enrich your CV/Resume as well as add to your LinkedIn profile any risk
- **7 x Limited Time Bonuses (\$1,493 in value)** which include **6 x Live Q&A Webinars, Dedicated Email Support, 2 x Downloadable Excel e-books, Intro to Pivot Tables Online Course, Downloadable Webinar Replay Video, Oz's SSSVEDA Excel Series Online Course and course discounts!**

➤ This Online Course is Delivered to You Inside a Cutting Edge, Easy to Navigate Learning System

The screenshot displays a learning management system interface. On the left is a green sidebar with a course menu. The main area shows a video player with an Excel spreadsheet. The spreadsheet has the following data:

Venue	Square Footage	Parking	Contact	Kitchen	Outside Catering Allowed
Crimson Colonnade	12,000				
Stevens/Lot/Valet					
Alta					
Y					
N					
Stevens Conference Center	8,000				
Stevens/Lot					
Rathine					
Y					
N					

Once you enroll in the course you immediately get access to our leading edge course management software.

This way of delivering the training helps to make your **learning more organized and keeps you focused.**

It also makes following the course much easier.

You'll be equipped with your own personal student dashboard, an achievements and progress tracker, viewed/remaining tutorials and course author discussions if you need any help.

You won't have to purchase anything additional to participate in the course, everything you need is provided!

> Downloadable & Interactive Excel Workbooks to Follow Along and Hone Your Skills

These workbooks are the same ones we work with in the video training and they are in "Start" and "Finished" mode so you can follow along or go directly to the answer!

You'll be able to follow us, step by step, and see first-hand how we use the various Excel features, tricks and strategies to come up with time saving solutions.

Of course you'll also be able to **download and keep all the Excel workbooks** that are shown on each training video to your desktop or hard drive! You can take the workbooks with you anywhere, office, home or even while travelling.

You can follow along LIVE and practice the new tricks and tactics you'll discover, which will build your confidence when using Excel.

You'll also be able to keep and use them as a reference tool that you can go back to later and refresh your memory (hey, we never remember everything the first time we see it, right?).

Downloadable HD Videos to Keep FOREVER!

Online access is great but how about when you are unable to connect to the internet or don't have WiFi access?

Problem solved!

Download all the videos from this course to your computer so you can watch offline, in transit or whilst you are travelling.

The downloadable videos are in HD quality mp4 format and you can keep them on your hard driver & re-watch the tutorials whenever you want!

You'll Get Lifetime Online Access + Course Updates

When you enroll, you get **LIFETIME online access**, from anywhere in the world, home or office ... 24 hours a day, 7 days a week, 365 days a year, year after year...

New video tutorials will be updated quarterly so you are guaranteed to be up to date with any of Excel's new features.

These are High Definition quality videos viewable from your PC, Laptop, Tablet or mobile phone.

These tutorials are available to watch at your own pace, so you can get maximum value out of them.

> Certificate Of Course Completion

Once you complete **The Ultimate Power Query & Data Cleansing Course**, you will receive a '**Certificate of Completion**' that you can print, frame, and use to enrich your resume/CV.

This Certificate is also available to put within your **LinkedIn profile & achievements** section for other professionals to see!

> 30 Day Risk-Free, Full-Confidence Money Back GUARANTEE!

We wouldn't dream of letting you enroll in this course without taking all of the risk **out** of your purchase decision.

We are so confident that you will get **lots of value from this course** that you can take it for the full 30 days, study it and apply it to your work to see the results.

If you're not 100% satisfied, we are more than happy to **refund the full purchase amount, even if it's midnight on the 30th day!**

So give the course a good go, watch & download all the videos, download the workbooks and ask us any questions during 30 days!

If you don't feel you'll be able to master the craft of using Excel Power Query & Data Cleansing to accomplish your objectives, then contact us and we will refund you your money, no questions asked and no hard feelings as that is our motto with all of the training courses that we offer!

You literally have nothing to lose. Fair enough?

- ✔ Lifetime Online Access
- ✔ Downloadable Workbooks to practice
- ✔ Downloadable HD Video tutorials

How Much Does It Cost?

Right now I'm offering LIFETIME access to The Ultimate Excel Power Query & Data Cleansing Course for USD \$297.

Online training is high in demand in the current corporate environment as it allows you to receive training at a much lower price as compared to the traditional live in-person seminars.

These seminars would usually cost you more than \$2,000, not to mention the additional travel costs to and from, cold conference rooms and distractions from students who are on a different learning level than you.

Let me ask you. How much of the content would you retain from these live seminars?

The Ultimate Excel Power Query & Data Cleansing Online Course

USD \$297

- Lifetime Online Access
- Downloadable Videos
- Downloadable Excel Workbooks
- 12 Months Dedicated Support
- 30 Day Money Back Guarantee!
- VIP Webinar Q&A Access
- Certificate of Completion
- Bonuses mentioned above

Live Training Seminars

\$2000+

- Extra Travel Costs
- Uncomfortable Conference Rooms
- Divided attention
- Distractions from participants
- Rigid Schedule
- 1-2 Day Access

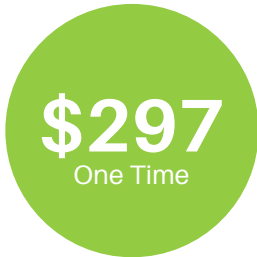

Study reveals that you are 90% more likely to retain what you learn from online training v live seminars as you are more likely to:

- Ask more questions as you don't feel like sounding stupid in front of a large crowd;
Learn at your own pace depending on your Excel level and not someone else's level;
- Have less distractions as you can watch the tutorials from any device and any place, including the comfort of you home;
- Practice what you learn straight away using the downloadable workbook or applying what you learn to your real life work files;

Frequently Asked Questions.

Who should take this course?

- New users, beginners, intermediates and advanced Excel users. Anyone who wants to use Excel to create more than just “columns and rows.”
- Professionals working in the corporate world or government sectors who want to leverage Excel for increased productivity, accurate data management and more.
- People who want to change career and apply for a new job.
- People who work with large volumes of data and want to quickly sift through, analyze, and chart the data in a professional way.
- People who prepare reports that require constant updating with new data on a daily/weekly/monthly basis.
- Import data into Excel from an external source e.g. ERP System like Oracle, SAP, QuickBooks, PeopleSoft, company database, Access, Web etc...and need to quickly & accurately analyze that data and extract valuable information.

What version of Excel do I need?

This course was recorded using Excel 2010 but all the concepts taught are compatible with:

- Excel for Windows: 2003*, 2007*, 2010, 2013, 2016
- Excel for Mac: 2011*, 2016*

* Power Query (Get & Transform) is not available in these versions

What am I going to get from this online course?

- Over **120** short downloadable video tutorials which amount to over **9** hours of Excel-specific training and accessible online for FOREVER! (Plus all of the items described above)
- You will be able to easily clean lots of data, automate and consolidate your reports and highlight business insights in a quick and interactive way, while getting noticed by top management and prospective employers. (Plus MUCH more...!!!)
- Increase your Excel skills dramatically, which will make you stand out from your peers and allow you to grab fresh new opportunities.

What payment methods do you accept

- We accept all major credit cards like Visa, MasterCard, American Express, Discover etc as well as PayPal.
- The course fees are shown in USD.
- Get in contact with us if you want to pay via a bank transfer or check at john@myexcelonline.com
- If you need a Tax Invoice for your records, then this can be emailed to you.
- We are happy to complete any paperwork your company or government may require.

Can I purchase the course for a large number of staff?

Absolutely!

Please contact us to discuss our specialized options for multi-user discounted pricing at: john@myexcelonline.com. We can also provide the course to integrate into your company's own Learning Management System.

Now, let's hear what some of my students have said about this course...

John Thong

Senior Operations Specialist

Thanks for offering The Ultimate Power Query & Data Cleansing Course, which is really enriching. With the knowledge, I was able to help other users to perform their daily routine tasks faster without having them to learn macros or remember the Excel functions. The follow-up live sessions are great as the solution to real work problems were resolved easily by Oz. The invaluable tips you offered will be put to good use.

John

Financial Accountant

This is an excellent course that is full of practical ideas. The instructors are very knowledgeable and are able to deliver their presentations in a confident and engaging manner. I would whole hearted recommend the course.

I have progressed this course and am amazed at the new techniques that I have learned. It is a fantastic learning experience

Bryan

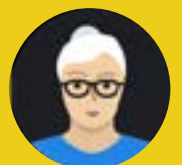

I.T

I've been a fan of John's courses and his partnership with Oz turned out great! They make a great team and I'm excited to apply these Data Cleansing techniques to my everyday work. Each video covers 1 aspect of what you need to know so it's easy to grasp and easy to digest. Every single dollar is worth it for this comprehensive course

John and Oz are fantastic at what they do. I have learned heaps from them and look forward to exploring the rest of the course.

Love how they use real world examples. Feels like on the job training - what better

Divisha

Sales

Mike Kardash

Engineer

The course delivered what it promised and I was able to apply some of my learning immediately - the content was practical. I liked that the course offered me alternate ways of looking at my data with tools that made transforming it less of a challenge and more of a game that was both rewarding and fun. Combining data cleansing and transformation techniques with Power Query made so much sense.

I really appreciated the opportunity to interact with both John and Oz via the course discussion board and the fact that they responded so quickly and personally. I learned a lot even after the course from other student's questions on the course board and the response provided by John and Oz. Now I have another resource to help me deal with data.

Gráinne Duggan

Office Manager

Fabulous Course! My Excel Online's Ultimate Power Query & Data Cleansing Course is up there with the best excel training courses. John Michaloudis presents the content dealing with formulas fully and in detail. The ability to play the video at double time allows a faster pace for those that only need a review.

Oz du Soleil presents the Get and Transform/Power Query content in an entertaining manner while covering it in depth. I especially liked that he gave the logic behind his actions and a variety of examples. The sample files provided gave plenty of opportunity to practice each module. I saved many hours converting a Quickbooks report into a pivot table using Get and Transform using what I learned from John and Oz. It felt like a miracle.

Mitchell Allen

Self-Employed
Solutions Provider

Before taking this course, I believed that I could solve any Excel challenge with VBA macros. Even when I had trouble with freelance gigs, I blamed the file size for slowing the macros down.

When I came across MyExcelOnline, I was pleased to find that Power Query was a solution to one of those gigs' slow performance.

This course was a real eye-opener! More importantly, the course showed me WHEN to use those tools and WHY.

John's no-nonsense presentation clearly explains concepts. Oz brings Power Query to life with excellent story-telling skills and a very polished presentation of worksheets, desktops and contextual diagrams.

John and Oz are polished instructors! Not only have they made the most of the technology used to deliver the course material, they made Excel itself into a seamless teaching tool.

The case studies are fun, insightful and actually relatable. I am looking forward to helping more people more efficiently than I ever could with VBA.

I now have the foundation for powerful data cleansing, thanks to John and Oz.

Look, if you are really serious about...

...Getting better at Excel and bringing an end to your data cleansing misery...

...Saving hours each day, days each week and weeks each year...

...Cleaning, automating & consolidating reports with the click of a button & without learning VBA...

...If you want to improve your professional development to achieve greater opportunities like promotions, a higher salary and knowledge that you can take to another job...

...All whilst impressing your boss and standing out from your colleagues and peers...

THEN THIS COURSE IS FOR YOU!

Now it's your turn to go ahead and discover the incredible power of POWER QUERY and the various Data Cleansing Techniques!

To enroll, click the BUY NOW button below (risk-free for 30 days or your money back)...

...Because every hour you delay only delays your personal and professional progress...
